- Section Counselors:** The College has implemented the concept of class teachers with certain relevant modifications. The need for this was felt when it was seen that the students face difficulties coping with the challenges of a professional course. Besides, many of the students have left their homes for the first time to pursue the course. To ensure that students do not feel lost in the new environment and to make them feel belonged, the concept of class counselors has been implemented only for the first year.
- The class counselor acts as a guide to the students of his/her section and solves any difficulty the student may face in the first year. The counselor is also a link between the student and other teachers, hostel in-charges & parents. Counselors hold individual and group counseling to build rapport with the students and encourage them to share their problems
- Branch Mentors:** Senior faculties of the branch are entrusted with the responsibility of mentoring students for their academic development (Paper presentation, Industry projects etc.). During the next three years, the mentors' aim is to groom their protégées as global professionals. Mentors also share students' performance with parents and involve them in the nurturing process.
